

DIMERCO SERVICE

Asia-Pacific Customs
Brokerage

ASIA-PAC

CUSTOMS BROKERAGE

Simplify customs compliance across the Asia-Pacific region with a team of certified experts that ensure fast, smooth clearance and 100% compliance.

What Companies Would Benefit Most?

Companies with complex customs compliance needs looking to import products into new Asia-Pac markets

Industries

Semiconductor, Electronics, Automotive, Textile, Machinery

Triggers for Service

- China+ strategy to diversify production locations beyond China to reduce risk
- Shift to more “tariff-friendly” countries
- Emerging market incentives to expand into their country
- Difficulty navigating the complexity of local Customs requirements and changes

GLOBALLY COMMITTED TO SAFE, SECURE SHIPPING

AEO (Authorized Economic Operator): AEO ensures customs compliance and security, leading to faster processing, fewer delays.

TAPA (Transported Asset Protection Association): Minimizes theft and cargo loss, ensuring safe and secure deliveries.

CTPAT (Customs Trade Partnership Against Terrorism): Enhances cargo security and speeds up U.S. customs clearance, reducing disruption.

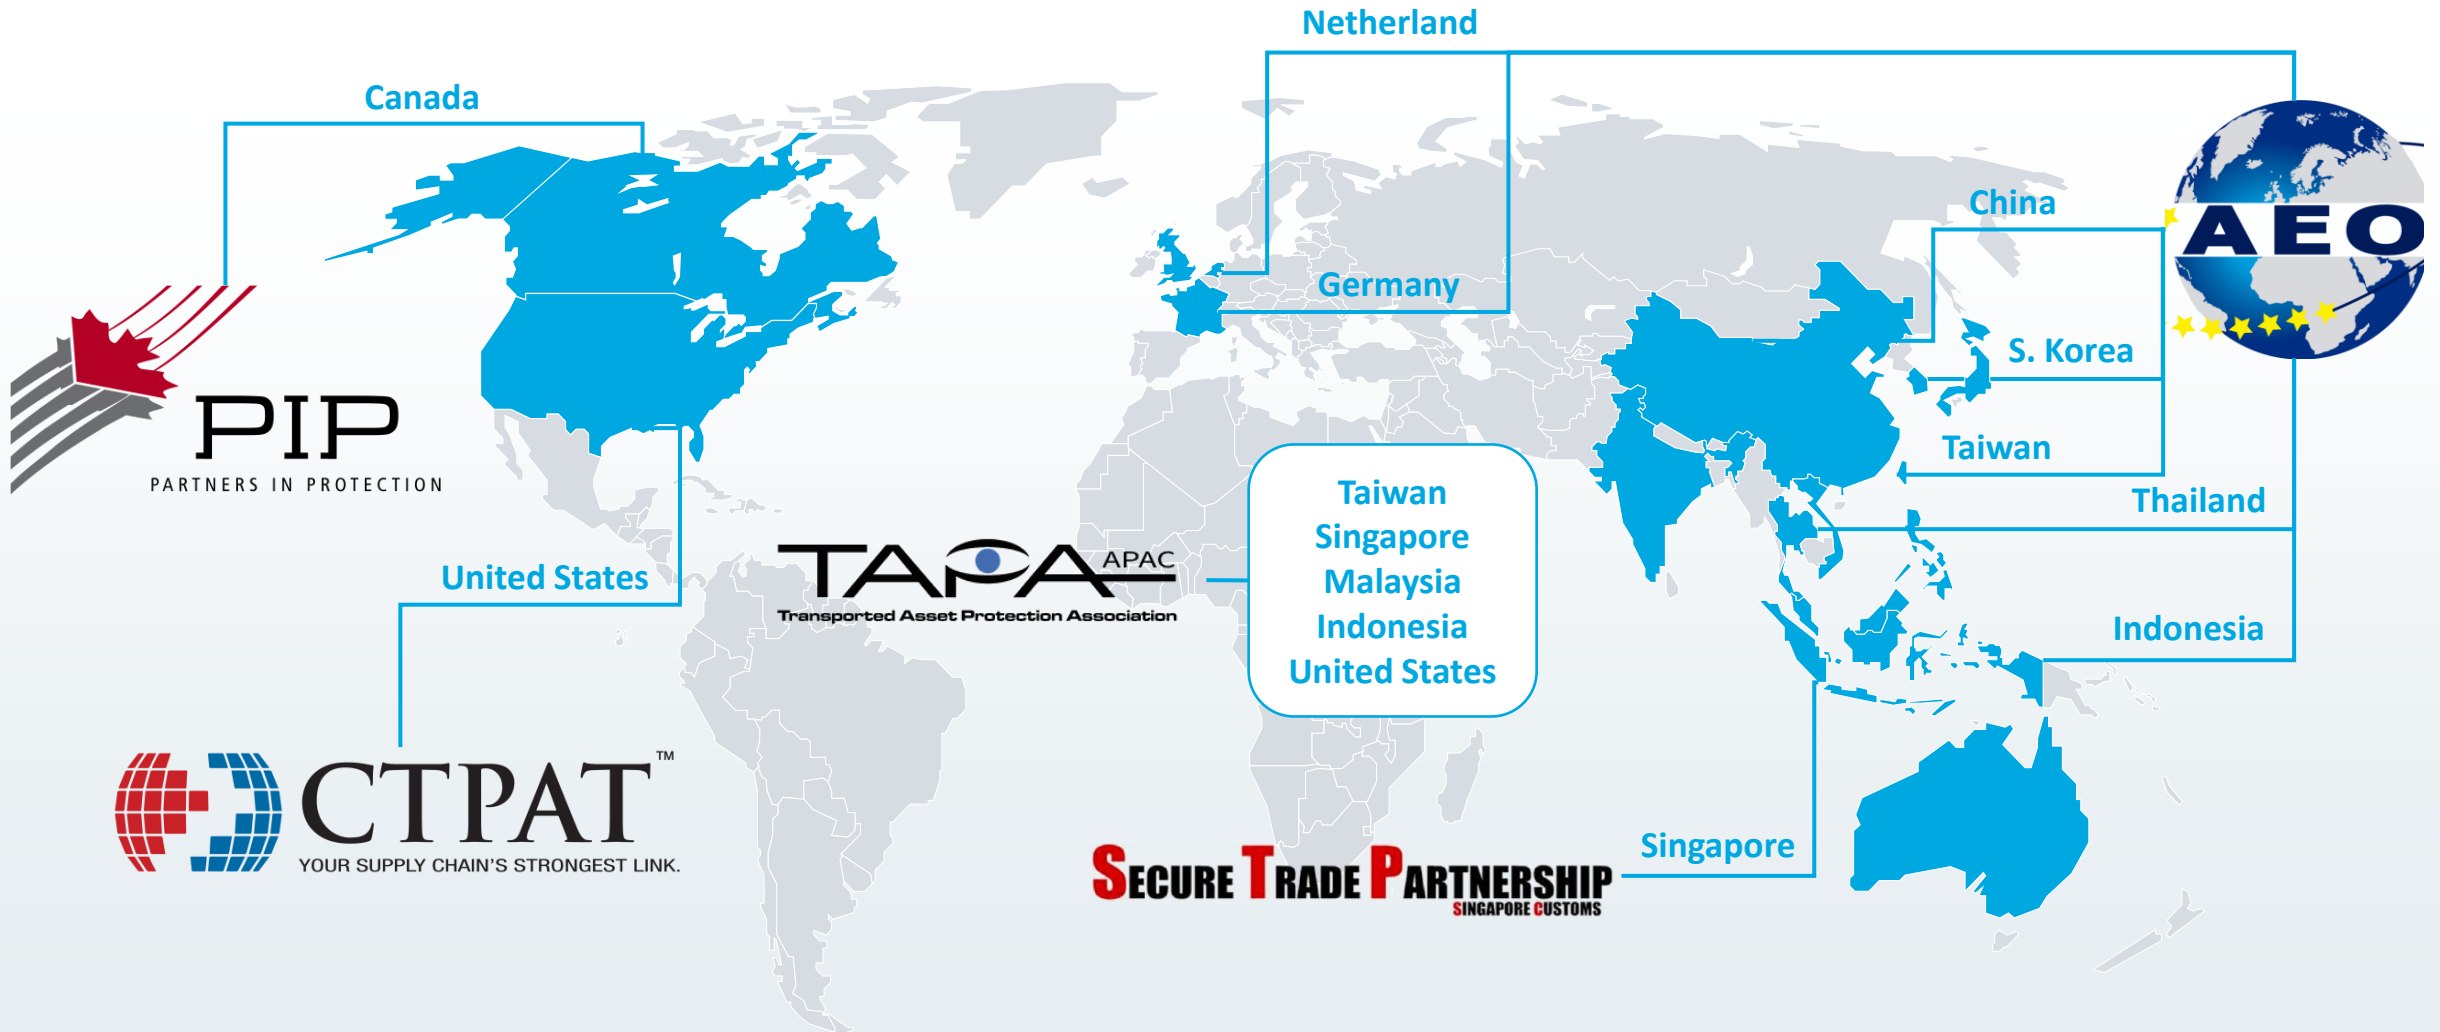

STP (Secure Trade Partnership): Streamlines customs clearance and improves cargo security, benefiting customers shipping through Singapore.

PIP (Partners in Protection): Strengthens supply chain security, offering faster processing and security when shipping to Canada.

GLOBALLY CERTIFIED

Tailored SOPs – Customized solutions align with your systems and SOPs

Certified Brokerage – earned certifications drive process consistency, with all offices sharing a single, global operating system

Benefit

- Faster shipments, fewer hand-offs, and clear communication for improved supply chain reliability.
- Increased operational efficiency, paperless processing, and faster clearance.
- Improved workflow consistency, reduced compliance risks, and enhanced adaptability to business needs.
- Faster customs clearance, reduced risk of delays, and enhanced security.

CASE STUDY

TPK GROUP – AUTOMOTIVE SUPPLIER FOR BYD

TPK Group planned to relocate its factory from Xiamen to Thailand. As the relocation involved many products –from machinery to raw materials – a detailed review of the HS Codes was necessary.

Reviewed 100+ HS Code classifications and assisted in submitting BOI incentive documents

Guided import planning process, addressing complex regulations for pre-owned machinery.

Managed timetable for vessel and space capacity to ensure on-time cargo arrival.
